## LOOKING FOR FACTS

**Police are Confident They Have Professionals.**

**A Fourth Man Added to Those Charged with Petty Larceny.**

**THE TRIALS ARE TOMORROW**

The police have as yet learned nothing definite regarding the men arrested yesterday afternoon on a charge of shop lifting and who are suspected of being professional thieves, and possibly men wanted in other places.

John O'Brien, New Orleans; George McReynolds, of New Albany, Ind., and Ed Garteous, of Cincinnati, as they gave their names are now charged with petty larceny, but some more serious charge may be found against a by tomorrow, when their case comes up for trial.

Another suspect, Frank Kelley, was arrested last night for stealing an overcoat from J. W. Burton's. There seems to be a gang of petty thieves in Paducah, some of them posing as cripples, some as vendors of cheap jewelry while others have other side lines, but thus far the police have been unable to find anything more serious against them than petty larceny.

It is probable they had just arrived in the city and had not had enough time to get in their work. The men seem to be pretty smooth, but they are good for at least a term for petty larceny. Their cases will be called for trial tomorrow.

## IN CIRCUIT COURT.

**ONLY A FEW CASES CONSIDERED TODAY.**

Judge Husbands held circuit court this morning but transacted little business. He adjourned at noon for the remainder of the day.

A judgment for sale was filed in the case of J. A. Glauber against J. C. Wood and others.

In the case of Bogard against the I. C., the decision of the lower court was reversed by the court of appeals. A mandate was filed, the case ordered reinstated and will be tried at the next term of court. The lower court dismissed the suit.

## FOOT MASHED.

**BUT IT WILL PROBABLY NOT HAVE TO BE AMPUTATED.**

Frank Sutton, colored, a car laborer from Louisville, was brought to the railroad hospital last night with a badly mashed foot.

He injured the member in Louisville yesterday and although the foot is badly mashed and broken, will not have to be amputated, it is thought.

## GOT \$500

**VERDICT AT MURRAY AGAINST TELEGRAPH COMPANY.**

In the damage suit case of Job Reid, of Dexter, Calloway county, against the Western Union Telegraph company for failing to deliver or delaying a message to Dr. Hart of Murray, the jury returned a verdict for Mr. Reid giving him damages to the amount of \$500.

Mr. E. W. Whittemore went to Grand Rivers this morning.

## FIRST CONVICTION

**A. B. Schlitzbaum Gets a Year at Hartford.**

**Charged with Attempting to Defraud the American Express Company of \$28,000.**

**VICTORY FOR O. A. ABBOTT**

Route Agent O. A. Abbott, of the American Express company has returned from Hartford, Ky., elated over the conviction there yesterday of A. B. Schlitzbaum, former agent at Fortsville, Ky.

Schlitzbaum was found guilty in circuit court of attempting to defraud the American Express company and was sentenced to one year in the penitentiary. The jury was out for two and a half hours before bringing in a verdict. It is quite a victory for Mr. Abbott, the popular Paducah route agent.

The trial was hard fought and marks the beginning of the end of one of the most important cases that was ever tried in the courts of Ohio county.

Schlitzbaum was formerly the agent of the American Express company at Fortsville and it was while he was acting in that capacity over a year and a half ago, that the alleged attempt to defraud occurred which caused his conviction.

J. W. Boatner, who was indicted with Schlitzbaum but whose trial has not yet taken place, claimed that he sent a package containing \$28,000 to Fortsville by the American Express company, and Schlitzbaum in his capacity as agent claimed that the package of money was stolen from his office. All efforts to track down the alleged thief were in vain and Boatner attempted to recover from the express company. Later, after an investigation, both Schlitzbaum and Boatner were arrested charged with conspiring to rob the express company and the charge was made that the package which it was claimed contained the money, in reality contained no such sum.

The indictment of the two men followed but the trials were put off from time to time. It is not expected that Boatner will be tried at this session of court. It is said this is the first time a corporation has won a victory in the Ohio circuit court in four years.

## ABOUT S TILED

**MOST OF THE COOPERAGE STRIKERS WILL RETURN TO WORK.**

The strike at the Paducah Cooperage company plant has about been settled. The misunderstanding was not strictly in regard to money matters. A compromise measure was offered and most of the men have agreed to return to work tomorrow. Several of the strikers have returned to work but the majority remain out yet. If they do not return tomorrow the company has signified its intention of securing new men. The company claims it pays much more for cooperage laborers than any other plant in the state.

**THINKS TWENTY DOLLAR BILL LEAF OF TOBACCO.**

Harrisburg, Ill., Nov. 25.—Frank Keimer, a farmer living near Princeton, started from home a few days ago to buy hogs and as he passed out of the house he picked up a leaf of tobacco and stuffed it in the same pocket with a twenty dollar bill. He espied a squirrel in a tree and while watching it reached down in his pocket, crumpled up the tobacco and put it in his mouth. It tasted rather queer, but he continued to chew it. When he made his purchase of hogs he discovered he had chewed up the bill with the tobacco. He had chewed the quit for at least an hour and nothing but the pulp remained.

**HAS FINE REGALIA**—The local Red Men have just received from Quincy, Ill., perhaps the finest degree team regalia in the state. It is for the eighteen members, is made of leather and cost about \$1,000. It will be used at the next installation.

## THANKSGIVING DAY

BY MINA IRVING.  
I saw her gowned in flimsy lace  
With violets on her breast.  
She looked so fair I almost then  
My love for her confessed;  
But there is many a soft blue eye  
And cheek that shames the rose,  
So still I dallied with my heart,  
Nor hastened to propose.

I met her in the afternoon,  
A vision all in blue,  
And nearly put the question there  
Upon the avenue;  
But still some faint misgiving checked  
The words upon my lips;  
I merely bowed in silence o'er  
Her dainty fingertips.

Thanksgiving Day I took a walk  
Beneath the branches bare,  
And at her door a smell of spice  
Was wafted on the air.  
I peeped within. A snowy cap  
Was on her curls of gold,  
A gingham apron neatly bound  
Her waist of slender mould.

Beneath her white and skilful hands  
A noble turkey lay;  
I watched her dress it, and my doubts  
Like mist dissolved away.  
Exhaling savory whiffs of thyme,  
And plump with golden fat,  
She popped it in the waiting range,  
My heart went pit-a-pat.

Entranced, I saw her leave the pies  
And run in eager haste  
With gravy rich, from time to time  
Its juicy sides to taste,  
And when, a symphony in brown,  
She dished that bird divine,  
I boldly stepped across the sill  
And asked her to be mine.

## MANY ARE OBSERVING THANKSGIVING

Banks have been closed all day, there was only one mail delivery at the post office and no deliveries on the rural routes, no court sessions, most all business houses were closed this afternoon, and the afternoon newspapers had noon editions today, in celebration of Thanksgiving.

Union Thanksgiving services were held at the Broadway Methodist church this morning beginning at 1:30, including the congregations of the First Baptist Cumberland Presbyterian, First Christian and Broadway Methodist churches. An appropriate sermon was preached by Rev. George O. Bachman of the Cumberland Presbyterian church. At the First Presbyterian and Grace Episcopal churches Thanksgiving services were also held. Liberal collections for the poor were taken at all of these services.

## FITZ WON EASILY FROM GARDNER ON POINTS

San Francisco, Cal., Nov. 26.—Bob Fitzsimmons, former heavyweight champion, did not have the walk over that many sporting men anticipated, in his battle with George Gardner here last night. Gardner, while clearly outclassed, staid out the twenty rounds. There was not as large a crowd on hand as expected, due, no

doubt to the general belief that Gardner would be easily whipped.

Both men fought hard and in the last round Gardner clinched Fitz so tightly that the referee could hardly pull them apart. He was determined to stay the twenty rounds, and he did. The referee awarded the fight to Fitzsimmons on points.

## EDUCATORS GATHER

**First District Teachers Will Begin Arriving Tomorrow.**

**Will Hold a Two Days' Meeting in Paducah—Elaborate Program Prepared.**

**ILLINOIS TEACHERS EXPECTED**

Preparations are complete for the meeting of the First District Teachers Association, which begins tomorrow at the high school building and lasts two days. Prominent educators from the district are expected and a number of Illinois teachers will come up to pay their Kentucky co-workers a visit.

The Paducah teachers, as usual, will see that the visitors are well taken care of, and have prepared a fine program.

Prof. Charles Evans, of Marion, is president of the association and Miss Mattie Dalton, of Fredonia, is secretary.

The program is as follows:  
**FRIDAY MORNING.**  
November 27.

Called to order and enrollment—nine o'clock.

Adjourned to visit Paducah schools.

**FRIDAY AFTERNOON.**  
Greeting Rev. J. W. Sikes, rector of Grace Episcopal church.

President's address—Natural law in the Mental World.

The Scholarship Aimed at in the Public Schools—W. C. Canterbury, C. T. Canon, D. R. Reeder, Miss Edith Marshall.

Two Sorts of History Teaching—Prof. William Lee, Miss Sadie Rankin, Miss Nannie Catlett, W. H. Sugg, Miss Eugenia Parham.

Music.  
Has the "Current Movement" Caught us Yet?—Prof. A. R. Boone, E. W. Howell, Miss Ada Brazzleton, Mrs. Nellie Whayne.

The Educational Value of a story—Miss Addie Boyd, Miss Dora Driffin, R. W. West, W. D. Dodds.

**FRIDAY EVENING.**  
7:30 o'clock.

Music.

Invocation.

Music.

Address—The Twentieth Century Gentleman—Dr. Burros A. Jenkins, president of Kentucky University, Lexington, Ky.

**FRIDAY MORNING.**  
Why I Am a Teacher—C. A. Norval, discussion, Prof. Lewilyn.

The Teacher—Well Informed—W. G. Crav, Miss Lillie Irwin. Trained—Miss Carrie Moore, E. W. Roach. Cultured—Mrs. Herndon, D. E. Wilson.

The Teacher Library—Prin. E. L. Paine, J. P. Morrison, Miss Susie Boyd, J. C. Neville.

## FORTYBARGESON WAY

**Four Big Towboats Coming Towards Paducah.**

**Coal Is Badly Needed Below—Hoped to Get it to Cairo on This Rise.**

**BOAZ, O'NEIL, FINLEY, BROWN**

A large amount of coal is now on its way to Paducah and points below but whether or not it will be able to reach here on the present rise is uncertain. The boats that have already left Louisville for Paducah, Cairo and New Orleans are the W. W. O'Neil, the Harry Brown, the Boaz and the J. B. Finley, which have about 40 barges.

All the coal, which is coming down on this rise, is the property of the Monongahela River Consolidated Coal and Coke company. Captain John Moran is in charge of the freight business of the company, and is now at Louisville to look after several barges of wire nails, on their way to New Orleans, whence they will be sent by rail to San Francisco. The officers of the company are not satisfied with the condition of the river and fear that they will have considerable trouble in getting coal to Cairo. After that city is reached there will be no trouble. Every arrangement has been made for the quick making up of the new tows destined for the south.

## STEAM HEATING

**One Residence to be Connected in a Few Days.**

Extensive improvements to be Started in the Spring by the Company.

The Steam Heating company has a large force of men at work on South Fifth street, between Broadway and Kentucky avenue, making excavations for an extension of the heating pipes to the residence of Former Congressman Charles K. Wheeler, at Fifth and Kentucky. Mr. Wheeler's residence will be the first residence to be connected with the steam heating plant, but others are to be shortly.

Supt. Fenwick expects to next week begin extending the pipes on Broadway to Sixth street to furnish heat for the St. Frances De Sales church and the residence of Mrs. H. Weil, at Sixth and Broadway.

Next spring the work of extending the mains into the residence will begin, and will be prosecuted during the summer until the most important portion of the residence section is covered with the steam heating pipes.

## SHOPS DESERTED

**LITTLE DOING ABOUT THE RAILROAD TODAY.**

The railroad shops here presented a deserted appearance this morning when a reporter made his regular rounds. There was not the usual rush and hurry but instead everything was quiet except the occasional shout of some cinder pit laborer or the puff of some switch engine moving cars about the yards.

The wood working, machine and blacksmith shops, were idle and the great doors closed. Only the round house exhibited any activity and this was among the hostlers preparing the engines for the road. The mechanics are all off today enjoying a day of rest and thanksgiving but will return to work tomorrow and again the great shops will take on life and will be moving as usual.

**LEMMON VINDICATED.**

Louisville, Ky., Nov. 26.—After a hearing in the police court on a charge of detaining Mrs. Ida Stewart of Morehead, Ky., Mr. Charles Lemmon, a prominent Louisville distiller, was dismissed by Judge McCann. As the grand jury has already refused to indict because there was not sufficient evidence, Mr. Lemmon is now free.

## NEW COLLEGE CHANTS

Some of Those of Modern Times  
in Big Colleges.

And Also a Few Observations By a  
Man Who Wants Collegiate  
Reform.

### THE ATHLETICS AND POETRY

From the New York Sun.  
Mr. Henry L. Boltwood, an Evans-  
ton high school principal, has been  
startling the western educators by a  
forceful attack on college athletics. Ap-  
parently he is an old fogey, who clings  
to outworn notions of the functions of  
universities. He was against modern  
improvements. He is blind to the so-  
fening effect of learning on undergrad-  
uate manners. He discharges his bile  
upon "the rowdism, vulgarity and  
theft of college men" and insults the  
Olympian calm of the intercollegiate  
competitions.

"A college athletic contest is too of-  
ten made the excuse for gambling,  
drunkenness, theft, and other robbery,  
plundering, restaurants, defrauding  
railroads, interfering with the rights  
of the traveling public, breaking up  
theaters and mobbing lecturers."

It is useless to argue with a hot box.  
Intercollegiate athletics are justly  
prized as one of the noblest of the  
learned professions; and fine furies of  
youthful and triumph are regarded  
indulgently by all philosophers. Mr.  
Boltwood is prosaic. He lacks imagi-  
nation. If for no other reason than  
their service to literature, college ath-  
letics deserve all the ardor which is  
given to them. They are the nurse of  
American poetry. From them come  
the grandest chants and highest heart-  
ed hymns of the new century. Many  
of these masterpieces are known to our  
readers.

The collection which we offer to  
them today comes from a new font of  
song, the Washburn university at To-  
peka. Old Washburn struggles in foot  
ball array with old University of Kan-  
sas, whose wild cry of "Rock chalk,  
Jay Hawk!" and so on is in all the au-  
thologies. This fall old Washburn ex-  
hibits a rich sheaf of song. Admirable  
as so much of the work of the athletic  
school is it has seldom exceeded the  
explosive euphony of these lines:

Hobble-Gabble! Razzle Dazzle! Zis-  
Boom-Ah!

Washburn College, Topeka  
You'll 'levent! Bas-tall nine!  
Hot stuff! Hot stuff! Hit 'em ev'ry  
time

"Zis-Boom-Ah" is a reminiscence  
or unconscious plagiarism, the one flaw  
in the diamond. Here is a perfect  
stone:

Oaky-Wau Wau!  
Skinny Wau Wau!  
Washburn Wau Wau!  
W-A-U-W-A-U!

The Urabua, the Arunta, the Vidi-  
dians themselves have never raised a  
chorus more original, simple, filling.  
This is no school-astic affectation. This  
is primal savage strength. One more  
of these sharp and terrible poems live  
battle-odes, whose lines are steel and  
fire:

Hold 'em! Hold 'em! Hold 'em down!  
Tear 'em up! Tear 'em up! Tear 'em up  
brown

Washburn College, Topeka town!  
The second line is the mysterious  
charm of invocation. Arboreal ances-  
tor-bowling rapture from the branches  
of the genealogical tree and "sis" the  
dons of war on the ground. After in-  
measurable ages the thought has found  
its Pindar. Now for the ironic, taunt-  
ing cry of defiance to the foe:

Bojaja! Bojaja!  
K U wants her ma-ma-ma!  
(Three times.)

Finally some bold young singer  
writes upon the heavens the name of  
the Topos Mighty Mother:  
O my! O my! Why! Why!  
Look! Look! In the sky,  
WASHBURN!

The historians of poetry in the  
Twentieth century, the future Warton  
and Chaucers, will do justice to the  
effect of intercollegiate athletics upon  
that poetry which is itself sufficient  
to refute the insinuations of Mr. Bolt-  
wood and all other spoilers.

# A NEW IDEA

And the Interesting Story  
of Its Development

PROBABLY there are not a hun-  
dred persons in  
the United States  
who are familiar  
with the inter-  
esting history of  
the development  
of the system  
which has come  
to be designated  
as the "Battle  
Creek Idea," though  
no longer repre-  
sented in Battle  
Creek alone, branches  
having sprung up  
in many places,  
while a knowl-  
edge of the prin-  
ciples of this re-  
markable system  
has become quite  
widely diffused  
throughout the civilized world.

The "Battle Creek Idea" is not a fad  
nor a mushroom growth. It is a sci-  
entific system which traces the main roots  
of its origin far back into the cen-  
turies. It is not the product of a single  
brain, but of hundreds and thousands  
of tireless workers and thinkers who  
have garnered the choicest fruits of  
generations of experience and have  
collected the results of centuries of  
scientific research.

A volume might be filled with the  
interesting story of the development  
of this wonderful work which has re-  
cently been made conspicuous by the  
burning of the main buildings of the  
Battle Creek Sanitarium last year and  
the recent dedication of the magnifi-  
cent new building which has been  
erected to take the place of the burned  
structures, but we have room only for  
a few choice bits of this interesting  
history.

The "Battle Creek Idea" in Ancient  
Greece.

Twenty-four centuries ago there lived  
in Greece a man whose master mind  
recognized great truths and formulated

other famous English poets also ac-  
cepted the teachings of Pythagoras,  
which are at the present time taught  
and practiced in the strictest manner  
by the famous Russian writer and re-  
former, Count Leo Tolstoy.

### "The Brook Farm Experiment."

Half a century ago there gathered on  
a little farm not far from New Haven,  
Conn., the most remarkable coterie of  
men and women who have ever been  
associated in any community in mod-  
ern times. George Ripley, the most  
famous Unitarian minister of New  
England at that period, was the found-  
er of the community. The practical  
realization of the Pythagorean philoso-  
phy was the central idea of the Brook  
Farm experiment. Among the 140 mem-  
bers of the community, most of whom  
afterward became eminent in various  
professions and callings, were Em-  
erson, the philosopher; Bronson Alcott,  
the transcendentalist; Thoreau, the in-  
terpreter of nature; Margaret Fuller,  
the educational reformer; Charles  
Dana, the founder of the New York  
Sun, and Hawthorne, one of the great-  
est literary lights of the century. The  
Brook Farm experiment failed for lack  
of financial management, but the  
ideals survived.

### The Wonderful Discovery of a Sil- ent Patient.

A little less than 100 years ago a  
fourteen-year-old peasant boy, who was  
barely able to read and had not been  
taught to write, while engaged in cut-  
ting wood on a mountain near his  
home, observed a wounded deer bath-  
ing its injured leg in one of the num-  
erous springs which abound in that  
particular region. Day after day the deer  
came and bathed the damaged parts  
until entirely healed of its injury.  
Priessnitz soon after suffered a severe  
accident from which the physicians  
who were consulted declared he could  
not recover. He tried the deer's re-  
medy, applying water by means of wet  
cloths placed over the injured parts,  
and in a few weeks was quite restored  
to health. He induced others to try his  
remedy and invented many different

applications, the Swedish system of  
gymnastics for both the sick and well  
and various means for the application  
of light and for the employment of all  
known natural curative agents.

Later, research laboratories were  
added for studying cases of disease and  
conducting original researches for the  
purpose of perfecting methods and de-  
veloping improvements in dietetics and  
all that pertains to the preservation of  
health and the cure of disease.

### A Mecca For the Sick.

Gradually, as a result of these ob-  
servations and researches, an elaborate  
and carefully perfected system, based  
upon sound scientific principles, was  
developed and became widely known  
as the "Battle Creek Method" or the  
"Battle Creek Idea." Battle Creek  
thus became a Mecca for health seek-  
ers, who thronged the place in increas-  
ing numbers summer and winter until  
the number of visitors reached an ag-  
gregate of more than 50,000, with an  
annual total of 6,000 or 7,000.

### A Disastrous Fire.

Then came the fire of Feb. 18, 1902,  
which destroyed the two main build-  
ings of the institution and started a  
wave of sympathy which spread  
throughout the whole civilized world.  
The work was not extinguished by the  
fire, however, and the completion of a  
better building at an expense of about  
\$300,000 marked a new era in medical  
progress, presenting to the world what  
may be justly regarded as a model  
sanitarium structure. Here for the  
first time were gathered together in one  
place and under one management ap-  
pliances for the application of all  
known rational and natural curative  
agents, the final perfection of which  
is now embodied in the great new  
structure which was dedicated with  
imposing ceremonies on the 31st day  
of May of the present year in the pre-  
sence of many thousands of persons.  
A formal invitation was sent by the  
governor of the state acting with oth-  
er prominent state officials to all lead-  
ing state and national officials in the  
United States. Letters and telegrams  
expressing congratulation and regret  
at inability to attend were received  
from the president of his cabinet,  
many governors of states, senators  
and members of congress and other  
officials in all parts of the country.

### A Magnificent Temple of Health.

Some idea of the splendid institution  
which was thus publicly set apart to  
the service of God and humanity may  
be gained from the following brief de-  
scription: The building is over 550  
feet, or more than a tenth of a mile, in  
length and seven stories in height, in-  
cluding the basement. There are three  
large four story buildings connected  
with the main building by a circular  
corridor. The length of these added to  
that of the main part makes the ag-  
gregate length of the building nearly a  
quarter of a mile. The building is thor-  
oughly fireproof, the construction being  
of brick, stone, iron and cement. The  
floors are of artificial stone covered  
with marble mosaic. The total floor  
space is over seven acres. There are  
five elevators. The arrangements for  
baths are most elaborate, as also ap-  
plications of electricity, light, heat and  
all physiological or natural methods in  
addition to ordinary medical and sur-  
gical means.

The Battle Creek Sanitarium is well  
known and recognized by the medical  
profession everywhere throughout the  
civilized world. "The Battle Creek  
Idea" and the Battle Creek institution  
have always been kept free from fad-  
and quackish or empirical methods. The  
work of the institution is thoroughly  
scientific. It is strictly unsectarian  
and undenominational, being simply a  
liberal Christian enterprise. All the  
doctors, nurses and managers connected  
with the institution are persons who  
have devoted their lives to mission-  
ary and philanthropic work and who  
are full of enthusiasm for the promo-  
tion of the principles of simple, natural  
living and the employment of natural  
methods in the cure of disease as well  
as in the maintenance of health.

### City Medical Missions.

The great training school for mis-  
sionary nurses sends out each year a  
little army of trained men and women  
filled with zeal and enthusiasm to  
preach the doctrine of simple natural  
living and to act the part of Good Sa-  
maritans wherever there is found any  
one in need of the skilled service  
which they are prepared to render to  
rich and poor.

Medical Missions have been estab-  
lished in Chicago and in various other  
cities in different parts of the world.  
Branch establishments, conducted by  
physicians and nurses trained at the  
central institution, are located in many  
parts of the United States and in for-  
eign countries. Numerous unauthor-  
ized and unreliable concerns professing  
to represent the same methods and  
ideas have sprung up in the vicinity of

### "Modern Eloquence" as a Guide to Success

EVERY young man wants to succeed. How? Obviously the way to learn is to  
study the methods of men who have succeeded.  
Guides to success are many. What do they say? Be honest. Tell the truth.  
Work hard. Save money. Do \$20 worth of work for wages of \$5. Such advice  
is good, no doubt, as far as it goes,—but is not something more needed?  
Did these methods alone make HILLIS, and BOK, and REED, and CARNegie,  
and CURTIS, successful?

Young men are not fools. They see that there is a secret of success, and  
that it is more than honesty and hard work, else every honest hard worker  
would be successful.

The secret lies in controlling the minds of men. How to make others believe  
you, trust you, and do what you wish,—this is what you must learn. To be sure,  
few will learn it but those who also work hard and tell the truth. These come  
first,—but they are not all.

As a guide to the highest success, "MODERN ELOQUENCE" has no rival. It is  
a splendid series of object-lessons by masters in the art of influencing men's minds.  
And the success aimed at is far more than mere money success. Fame, power, honor,  
the gratitude and love of generations to come,—these are the rewards which have  
sprung to such efforts the men whose words are gathered in these ten rich volumes.

In "MODERN ELOQUENCE" the men who have won success in every line speak  
for our instruction:—  
In Law, there are Evans and Phelps, both the Choates, Coudert, and David  
Dudley Field.

In Journalism, Dana, Halstead, Watterson, McClure, McKelway, and  
Whitlaw Reid.

In Politics, Cleveland and Harrison, Blaine and Conkling, Sumner  
and Seward; we listen to the eloquence of Gladstone, then to that of his  
great rival, Disraeli.

In Literature, we have the best thoughts of Dickens and Thack-  
ery, in contrast with the more modern humor of Howells and Mark  
Twain; or Carlyle, Froide, and Morley speak to us from across the  
sea, for comparison with our own Emerson and Curtis.

Among the heroes of War are Grant and Sherman, Sampson  
and Schley, Miles, Wheeler, and Law Wallace.

Among great Educators are Eliot, Gilman, and Hadley.  
Among great Scientists, Huxley and Tyndall, Herbert  
Spencer and Agassiz.

Among successful men of Business are Carnegie  
and Depew, E. W. Bok and Cyrus W. Field. Presi-  
dent Eliot's address on the "Uses of Education for  
Business," and Gladstone's "Modern Training for  
Life," are guides for the beginner to learn by  
heart; and Bok's lecture on "The Keys to  
Success" is of the greatest practical value to  
every young man ambitious to succeed.

## Like a Diamond in the Sky

In the annals of medicine Kodol is up above the world so high that it is like a diamond in the sky. True merit has elevated this famous remedy to that position wherein it stands preeminently as the world's recognized cure for all disorders of the stomach and digestive organs.

Unlike all other remedies, Kodol combines the natural digestants with the greatest known tonic and reconstructive properties. It does not purge the system. The weak should never be weakened and the sick should never be sicken. Such treatment gives temporary relief often, but permanent good never.

Immediate benefits follow the first dose, and perfect health is the permanent result derived from the use of Kodol.

**Kodol Dyspepsia Cure** digests what you eat—makes the stomach sweet.

### A LAWYER

Five years ago dyspepsia took such a hold on me I could scarcely go. I took quantities of medicines, but nothing helped me. I tried Kodol, and in a few days I was cured. It cured me. GEORGE S. MARSH, Nocona, Tex.

### A BANKER

I suffered for four years with indigestion. After having almost despaired of ever getting well, Kodol was recommended to me. I began to improve at once. I am now taking the third bottle and I feel as well as I ever did. Can eat anything without bad effects. THOMAS H. TAYLOR, Como, Miss.

### A MERCHANT

I suffered heart-burn and stomach trouble, caused by dyspepsia, have had some very bad attacks of same. My sister-in-law had the same trouble. She lived entirely on water. Two bottles of Kodol cured her. As for myself, I am glad to say that a dose of Kodol always gives me instant relief. J. D. ESKINE, Allenville, Mich.

### A MINISTER

For years I suffered from dyspepsia, growing worse and worse, until culminating in a bad case of ulceration of the stomach. Every known means, and many of the best physicians, were consulted. My people sent me to Europe. Each hemorrhage left me weaker and weaker. Finally I was induced to try Kodol Dyspepsia Cure. It relieved me beyond imagination. I am now using my third bottle, am preaching twice every Sunday, and thank God I expect to be well soon. W. P. LOPER, Earlville, Ia.

### A DOCTOR

After three years almost constant use of Kodol in hundreds of cases referable to faulty digestion and assimilation, I can truthfully say it is the most efficient combination for dyspepsia, indigestion, flatulence, nausea and all gastric disorders that it has been my good fortune to discover. My experience in a general and hospital practice dates from 1872, and of all the digestants prescribed in those thirty years, none in my hands have proved so thoroughly effective as Kodol. E. H. HAYES, M. D., Washington, D. C.

## SOME THINGS ABOUT OUR PRESIDENTS

Of the twenty-six Presidents who have presided over the destinies of this Republic, Gen. Washington was the only one who did not live in the White House, although he was President when its corner stone was laid. John Adams was the first to occupy the mansion, which has been in continuous use as an executive mansion ever since, with the exception of a few years when it was abandoned by Madison and the interior destroyed by the British. During that period Madison and his charming wife Dolly Madison, lived in what is now called the Octagon House until the White House was again made tenable.

Only four Presidents died in the City of Washington, three while in office, Harrison, Taylor and Lincoln, and one, John Quincy Adams, while a member of the House of Representatives, nineteen years after his term as President had expired. Garfield was shot in Washington but died in New Jersey, and McKinley died in Buffalo.

Washington, Jackson, William Henry Harrison, Tyler and Grant were tendered the office of President by the people as a display of their appreciation for their wonderful military achievements. The only full Generals who arose to be President were Washington and Grant, and Grant was the only West Pointer who ever held that dignified office. It is a coincidence, however, that it fell to the lot of a West Pointer to become President of the Confederate States of America, in the personage of Jefferson Davis, who was graduated from the military academy fifteen years before Grant.

John Adams had a son who became President, and William Henry Harrison a grandson. Only one President ever held an elective office after leaving the White House, John Quincy Adams.

It is the general impression that Gen. Washington died as a private citizen. This is a mistake, for the records show that at the time of his death, December 14, 1799, he was "Lieutenant General and commander of the United States army, July 3, 1798 to the day of his death," and

drew his pay as such (Heitman's Historical Register Continental Army, 1775-1786).

The strangest of all happenings in the histories of American Presidents occurred on the 4th of July, 1826, when Jefferson and John Adams passed away simultaneously; Jefferson, the draftsman and Adams the great expounder of the Declaration of independence; Adams at the ripe old age of 90. Jefferson only seven years his junior.

James Buchanan was the only bachelor President. Grover Cleveland was a bachelor when elected, but he relinquished another bit of history in being the only President married in the White House.

Two of our Presidents started in life as tailors. They were Millard Fillmore and Andrew Johnson. The young men of the country who are tailors' apprentices should make a note of this.

The only speaker of the House of Representatives to become President was James E. Polk. The position of Speaker is generally thought to be a beautiful vantage ground for the Presidential goal, but Blaine was speaker, and so was Clay, and their hopes of the Presidency were never realized.

No Vice President succeeding to the Presidency as a result of the death of the President has ever been elected President.

Five ex-Presidents were alive during the Civil war. They were Van Buren, Tyler, Fillmore, Pierce and Buchanan. No record has been found to indicate that either was ever called in consultation with the powers at Washington, and even gratuitous communications from them are not found.

James Monroe died in New York City and was buried there, and it was many years before his remains were taken to his native state and interred at Richmond.—Exchange.

**LAX-FOS** Cures Constipation and all stomach troubles by removing the cause. Price 50c. S. H. WINSTEAD MED. CO. Paducah, Ky.

## THE I. C. ASSESSMENT

Some of Its Roads Assessed at \$26,000 a Mile.

Report of the Kentucky Railroad Commission Is Now Ready.

The report of the Kentucky railroad commission is ready to be filed with Governor Beckham December 1. It does not show much progress in the building of new roads, as only about 24 miles were constructed the past year. All the railroads made a good increase in earnings.

The assessment of the Chicago, St. Louis and New Orleans, better known as the Illinois Central, is by divisions, as follows:

Mississippi division, \$26,000; Elizabethtown division, \$5,000; Louisville division, \$19,000; Evansville division, \$7,000; Morganfield division, \$6,000; Dekoven division, \$2,000; Owensboro division, \$6,000; Kentucky Western division, \$3,000; Paducah union depot, \$19,000; Hodgenville and Elizabethtown railway, \$4,000.

### BEST LINIMENT ON EARTH.

I. M. McHany, Greenville, Tex., writes, Nov. 2, 1900: "I had rheumatism last winter was down in bed six weeks; tried everything, but got no relief, till a friend gave me a part of a bottle of Ballard's Snow Liniment. I used it, and got two more bottles. It cured me and I haven't felt any rheumatism since. I can recommend Snow Liniment to be the best liniment on earth for rheumatism." For rheumatic, sciatic or neuralgic pains, rub in Ballard's Snow Liniment, you will not suffer long, but will be gratified with a speedy and effective cure. 25c, 50c and \$1 at DuBois, Kolb & Co.

### DON'T BE A DONKEY

### FAMILY NAME CHANGED.

DEPUTY SURVEYOR SNOOK WAXES SOMEWHAT FACETIOUS.

The Louisville Herald tells this of Mr. S. J. Snook, formerly of Kuttawa, and a son-in-law of Captain W. J. Stone, former congressman from this district:

Sidney J. Snook, deputy surveyor of the port, who has ambitions to be a statesman, is angry with the Directory company because they misspelled his name. It is in the red book as Sidney J. Snooks. He told something about the history of his name yesterday:

"Our family is Welsh," he said, "and dates back almost a thousand years, although we have been in Kentucky only for a few generations. The original name of the family was Sevenoke, arising from the fact that one of my ancestors, who was a great Welsh lord or baron, had an estate, the castle on which, was hidden behind seven immense oak trees. One night his enemies cut the trees down, and my ancestor was so mortified that he fell on his sword and hanged himself. His sons, determined to be avenged, fell on the men who had felled the trees and a first class mountain feud resulted. Gradually the name Sevenoke degenerated into Snook."

### BEAUTIFUL CLEAR SKIES.

Herbine exerts a direct influence on the bowels, liver and kidneys, purifying and strengthening these organs and maintaining them in a normal condition of health; thus removing a common cause of yellow, mothy, greasy skin, and more or less of pimples, blotches and blackheads. 50c at DuBois, Kolb & Co.

## STATE AGENTS MEET

A Preliminary Meeting to Organize Insurance Asso.

Louisville Agents Start the Move—Final Meeting Dec. 15.

A meeting of the state agents of the life insurance companies represented in Louisville, is expected to result in the organization of a state life underwriters' association, of which all the life insurance men in the state will be asked to become members.

The meeting was called by Sidney Sladden, of the Pacific Mutual, to allow all of the general agents to get acquainted. "There has been much bitter feeling among competing state agents here in the past, and it has been largely due to the fact that they did not know each other," said Mr. Sladden. "I believe that yesterday is the first time that all the general agents came together in a social way. A better feeling is expected to result all around, as there is no reason why there should not be the best of fellowship between the state agents."

It was decided to hold another meeting December 15, at which the question of organizing a state association of life underwriters will be further discussed. The agents present at the meeting yesterday elected the following officers to serve until the association is formally organized: President, John O. Davidson, Aetna Life Insurance company; vice president, Sidney Sladden, Pacific Mutual Life Insurance company; secretary, William Colgan, State Mutual Insurance company.

### WORM DESTROYER.

White's Cream Vermifuge, not only kills worms, but removes the mucous and slime, in which they build their nests; it brings and quickly, a healthy condition of the body, where worms cannot exist. 25c at DuBois, Kolb & Co.

Rev. W. H. Robinson has gone to Eastern Kentucky to deliver a Thanksgiving sermon at the Old Spring Bayou Baptist church.

## PAPERS CAME TOO LATE

YOUNG MEN FROM HOOSIER STATE WANT TO SHOOT AGAINST STARR BROTHERS.

The sportsmen of Indiana are all right but they are a little slow. The challenge issued to the world by the Paducah Gun club for a live bird match with the Starr brothers, of the city, for \$100 a man, to be shot here October 19 last, has just been taken by two members of the Fort Wayne, Ind., Corner Rod and Gun club, who have written Secretary Davis in regard to the matter. As the time has long since expired, their acceptance had to be declined. They desired to shoot at Louisville and did not mention the names of the marksmen they desired to match against the invincible Starrs.

### A DANGEROUS MONTH.

This is the month of coughs, colds, and acute catarrh. Do you catch cold easily? Find yourself hoarse, with a tickling in your throat and an annoying cough at night? Then, you should always have handy a bottle of Ballard's Horehound Syrup. J. A. Anderson, 35 West Fifth street, Salt Lake City, writes: "We use Ballard's Horehound Syrup for coughs and colds. It gives immediate relief. We know it's the best remedy for these troubles. I write this to induce other people to try this pleasant and efficient remedy." 25c, 50c and \$1 at DuBois, Kolb & Co.

Personally appeared before me this  
day R. J. Paxton, general manager of

statement of the circulation of The  
Sun for the month of Oct., 1903, is true  
to the best of his knowledge and belief.

My commission expires at the end of  
the next session of the senate.  
Nov. 1, 1903.

DAILY THOUGHT.  
There are no fields so fair and sweet  
as through which climbs the hard  
road of sacrifice. James Buckham.

The weather man was a couple of  
days ahead of time with his Thank-  
sgiving weather.

Chicago people who have been walk-  
ing will now have to stand. The cars  
are running again.

The poor who had no Thanksgiving  
turkey needn't feel bad about it. It  
was hard for even the rich to get them  
this year.

Probably the reason some of our  
city officials have not paid their taxes  
is that they have to have something  
for Christmas.

More misery for the Democrats.  
Senator Platt and Gov. Odell, of New  
York, have been "harmonized,"  
which removes New York from the  
doubtful and places it in the Repub-  
lican column.

A learned decision has just been  
rendered by the Kentucky court of ap-  
peals. It is that a paper published  
every day except Sunday is a "daily  
paper." We had been led to think it  
was only a weekly.

The solution of the labor problem  
may be accomplished sooner than ex-  
pected. President John Mitchell, of  
the mine workers, is quoted in an in-  
terview as having predicted that after  
the present era of industrial war will  
come "an era of peace, with honor to  
both sides."

The cat is on of the bag. Ollie  
James introduced that states rights  
bill simply "to give 'em something to  
talk about," and let 'em know Mr.  
James, of Kentucky, had arrived. At  
least that is what his colleague, Con-  
gressman Stanley, of the Second dis-  
trict, says about it.

Let's not be too enthusiastic. The  
saloon keepers were not exactly fine  
for keeping open on Sunday, but for  
keeping open on Sunday after they  
had been officially requested to keep  
closed. It is so seldom such a favor  
is asked of them, they ought to have  
had more consideration than to refuse.

The Chicago Chronicle rises to re-  
mark that "the McKinley administra-  
tion repudiated Thomas Jefferson in  
Porto Rico and the Philippines, and  
the Roosevelt administration has re-  
pudiated Abraham Lincoln at the is-  
lands." but it neglects to mention that  
the people have repudiated Democracy  
all over the Map.

The Democrats are not quite cer-

that they want to disfranchise the  
negro in Kentucky, for the only way  
they could do it would be by an edu-  
cational qualification. It is claimed  
this would deprive 65,517 illiterate  
whites and 36,990 blacks of suffrage.  
This is not a very pleasing outlook  
for the Democrats in their latest pol-  
itical enterprise.

The late President McKinley, it is  
stated on the authority of his nearest  
friend and most trusted advisor, Sen-  
ator Hanna, was personally in favor of  
the Panama canal, but wisely left the  
selection of a route to the commission,  
and was ready to abide by the selec-  
tion of the commission. At that time  
there was a great obstacle in the way  
of the Panama route in the shape of an  
exorbitant price, which obstacle has  
since been removed.

Some of our strenuous western  
jurists refuse to stand for any foolish-  
ness. In reprimanding an effort to  
discredit a plaintiff by claiming she  
had been hugged and kissed, a judge  
of Guthrie, Oklahoma stated that most  
all men had hugged and kissed women  
and most all women had been hugged  
and kissed by men, and in either case  
it was no evidence of bad character.  
Guthrie probably wouldn't be a good  
place for an anti-kissing society.

Mr. Cleveland, according to the  
interview of a warm personal friend,  
feels humiliated because of the talk o  
nominating him for president. He  
thinks it is a slam on the party be-  
cause of the possible inference that  
he is the only man left in the party fit  
to be president. Mr. Cleveland is  
probably only jolly. Everybody  
knows that Hon. Ollie James, of Ken-  
tucky, and John Wesley Gaines, of  
Tennessee, are still loyal to the Demo-  
cratic party.

The St. Louis Globe Democrat  
points out that in "the recent election  
Kentucky Republicans cast 202,764  
votes, or 46 per cent of the total. Re-  
publicans in that state have one con-  
gressman in eleven. Missouri Repub-  
licans also cast 46 per cent of the  
total vote of the state. They are al-  
lowed one congressman in sixteen. In  
Missouri and Kentucky 520,000 Rep-  
ublicans are represented by two con-  
gressmen. Such is government by  
gerrymander and Goebellism."

Many states are more strongly Re-  
publican than ever before. The Louis-  
ville Herald thus shows how. "In  
1892 Grover Cleveland carried one  
electoral vote in Ohio and came with-  
in about 1,000 votes of carrying all  
the others. The one Republican elec-  
tor who then failed of election was  
Myron T. Herrick, who carried the  
recent election for Governor by more  
than 110,000. In 1892 not only did  
Cleveland carry one electoral vote, but  
the Democrats carried a majority of  
the Ohio Congressional districts. In  
1896 the Republican plurality in the  
State was 51,569; in 1900 it ran to  
69,036. The recent state election  
points to a plurality next year ex-  
ceeding 100,000

It is worth considerable to any citi-  
zen of Paducah to know how to be  
cured of painful, annoying and itch-  
ing piles. Know then that Doan's  
Ointment is a positive remedy for all  
itchiness of the skin, for piles, ec-  
zema, etc. One application relieves  
and soothes. Read this testimony of  
its merit:

Miss Annie Richardson, living at  
320 South Third street, says: "I  
have been troubled with eczema for a  
year or more. At times it was very  
sore and itched badly. I tried a great  
many ointments and salves of various  
kinds. I thought some of them was  
going to make a permanent cure, but  
in a short time it would break out  
again as bad as ever. When I saw  
Doan's ointment advertised I made up  
my mind to give it a trial. I obtained  
a box at DeBois & Co.'s drug store  
and began its use. It proved itself to  
be all that is claimed for it. It made  
a complete cure and up to the present  
time I have not noticed any signs o  
its return."

For sale by all dealers. Price 50  
cents. Paster with a Co., Buffalo,

## NEW SCHOOL SUPT.

Much Speculation as to Which  
Board Will Elect Him.

The Present Indications Are That the  
Present Board Will Insist  
on Doing it.

## SEVERAL APPLICANTS FOR JOB

Since it has become known that Su-  
perintendent O. B. Hatfield, of the  
public schools, is to tender his resig-  
nation next Tuesday evening at the  
regular meeting of the board of educa-  
tors, the question has arisen which  
board will elect his successor, the pres-  
ent board or the new board.

No one at present seems able to an-  
swer the question, or at any rate no  
one is willing to do so. It is not even  
certain that the present board, which  
has always warmly supported Superin-  
tendent Hatfield, will accept the resig-  
nation.

A great many are wondering wheth-  
er the old board will choose the new  
superintendent, or the new one, but  
it is reported that Superintendent Hat-  
field desires to leave at once, and for  
that reason it will be necessary to elect  
his successor at once, in which event  
the present board will probably elect  
at the next meeting, if possible.

It seems to be the prevailing belief  
among the members of the present  
board, however, that they will elect  
the new superintendent, and if they  
do, Prof. Evans, of Marion, is tipped.  
It is understood there are a number of  
out of town applicants, but members  
of the board decline to give their  
names.

Kentucky the Pioneer.  
Kentucky was the first state to allow  
women to vote on school questions, but  
at the last school board election in  
Lexington 1,900 colored women and only  
700 white women registered. This  
state of affairs has caused the introduc-  
tion in the state legislature of a law  
entirely disfranchising women.

Memorial for Justice Marshall.  
The purchasing of the home of Chief  
Justice John Marshall in Richmond,  
Va., is contemplated for the purpose of  
erecting thereon a proper courthouse  
as a memorial to the federal govern-  
ment to the great chief justice, as well  
as a proper home for the judiciary of  
which he was such an ornament.

## THE TEMPERATURE.

The minimum temperature last  
night was 23 and today has been quite  
cold. It is not the coldest of the  
season, however, the temperature  
going to 18 degrees one day last week.

Missing Opportunity.  
The automobile had broken down,  
and the chauffeur was busy trying to  
discover the trouble. The impatient  
owner of the machine at last broke  
out: "Hurry up, Felix; there are a lot  
of people crossing the street that we  
are missing."—Yonkers Statesman.

Cities of Equal Population.  
The two cities of Manchester in Eng-  
land and Boston in the United States  
are almost exactly equal in population,  
while Birmingham and Baltimore are  
also very nearly alike.

Saving in Automobiles.  
After a two years' test of an automo-

## \$100 REWARD NOT CLAIMED.

Two months ago the Stearns' Elec-  
tric paste company, of Chicago, offer-  
ed a hundred dollars reward to any  
one who used their Electric Rat and  
Roach Paste and did not find it suc-  
cessful in killing off rats, mice, cock-  
roaches, water bugs, etc. Hundreds  
of people have tried for this reward,  
but in every instance have not been  
able to claim it, as the Electric Paste  
never failed to clear the house of rats,  
mice and bugs. It is sure death and  
drives the rats and mice out of the  
house to die. Druggists and grocers  
generally have the paste for sale or a  
package will be sent prepaid on receipt  
of price by the Stearns' Electric Paste  
company, of Chicago, Ill. Small size,

CUT OFF FINGER—Mr. Merritt Hayes, while operating a printing press printing labels at the Hayes Drug company establishment at Seventh and Broadway yesterday afternoon, cut off the third finger of his right hand to the first joint. Dr. J. G. Brooks attended him.

DRILL WAS POSTPONED—The competitive drill did not come off at the exposition last night on account of the illness of Mrs. James Caldwell, wife of Captain Caldwell, of the local military company. The members of the company did not all show up and the drill was postponed.

BLEW UP THE STOVE—Henry Grace, the cigar dealer of Broadway, attempted to blow the soot out of his stove yesterday afternoon by the powder method. He got rid of the soot, but also of most of the stove and the pipe, and it required several hours to straighten things out again.

TO CALL COMMITTEE TOGETHER—Mayor Yeiser will one day next week call together the committee that is to decide on whether or not to accept the \$2,000 compromise offered by Roberts & Co., of New York, in their suit against the city for \$10,000 damages for breach of contract.

MORE BRICK RECEIVED—Contractor Ed Terrell has received five car loads of Bannock brick, but will have to have twelve in all to pave the block between Broadway and Jefferson on Third. It is probable when Third is completed between the streets named no further work will be done until spring. The time for completing the entire contract of seven blocks expired Nov. 15. The city has not yet extended the time so far as known, but will probably do so as the contractor has had to contend with some very annoying delays.

Dr. Fenner, Fredonia, N. Y.

Dear Sir:—Some six months ago a friend recommended to me your justly celebrated Kidney and Backache Cure. I was at that time suffering intensely from pains in my back.

My work daily aggravated the complaint and I was in torture all the time. After taking two bottles of your medicine I was relieved and two more completely cured me. I feel like a new man now, thanks to your Remedy, and unhesitatingly recommend it to those suffering as I was.

New suitings, swell patterns, correct in style, snug in fit,— something to be thankful for.  
Then new Neckwear! The prettiest things man ever conceived. You certainly must have two or three.  
Gloves, too. All the new shades in kid walking dress, driving. A big line of imported and domestic wool gloves.  
Man can be thankful with such "equipments."

Where Money Meets Its Equal

### A street in California

There are at least a hundred towns and cities in California which have anywhere from two to twenty streets like this—palm-lined avenues, where all manner of tropical and sub-tropical flowers and shrubs flourish as nowhere else.  
The houses along these avenues are in keeping with their surroundings—cool, inviting, with wide, shady verandas and well-kept lawns.  
Thousands of eastern people own their own homes in California and live there four, five or six months of each year. Ten times ten thousand people go there every fall and return the following spring. Such of them as want better than ordinary service take the Rock Island System, going and returning. Full information on request.

**HAYES'** Beechwood Emulso-Hypo with Iron, we think, is a preparation the medical profession have long been wanting. The formula is different from any other preparation of like character on the market. It contains full 40 per cent of Pure Cod Liver Oil by volume, is emulsified with glycerinated yolk of egg—and egg emulsions have long been recognized as far superior to any other class.

Emulso-Hypo contains no other flavoring than a fine quality of brandy, combined with Hypophosphitis of Potash, Lime and Soda, Iron, Quinine, Strychnine and Manganese, with pure Beechwood Creosote and Syrup of Iodide of Iron.

We cannot see how any better preparation of the kind could possibly be made.

Emulso-Hypo positively contains no drugs that would injure the digestive organs, such as gum arabic or Irish moss.

We have already printed testimonials from patients. Later we will publish some from physicians who recognize its value.

At most druggists Price one dollar.

### Theatrical Notes.

Al G. Field Greater minstrels, will be at The Kentucky next Monday night. Seats on sale Saturday at 10 a. m.

Mr. Harry Beresford, the young character comedian, is in the city today and tonight in "The Professor's Love Story."

One of the most pleasing musical comedy attractions of the season will be seen at the Kentucky Saturday matinee and night, when the famous comedians, "The Lyman Twin Brothers" appear with their excellent company in the seasons big success "At the Races."

It is probable that many of the Paducah Elks will tender their old favorite, Al Field, an informal reception Monday night upon his visit here. Mr. Field has always been popular with them, and his picture has for years had a conspicuous place on the walls of their lodge room. Last year Mr. Field was not with the company on account of illness and his admirers will be unusually glad to see him this year.

Mary Shaw will shortly commence an extended engagement in Chicago. She will open with Ibsen's "Ghosts" in which she scored a pronounced success in the western metropolis last season and will follow with several other plays on the Ibsen repertoire. Miss Shaw's manager, George H. Brennan, is arranging a spring appearance for his star in New York city in a new play by an American author.

Howard Kyle's starring tour in "Rosemary" under the direction of George H. Brennan opened successfully in Elizabeth, N. J. last Tuesday evening. There were several distinguished people in the large audience including Governor Murphy of New Jersey and Mayor-elect George B. McClellan of New York City. Mr. Kyle's hit in the leading role of "Rosemary" was so pronounced that arrangements are now in progress for his appearance in New York city before the season closes.

"Miss Bob White," which will be here this season, has broken many records for big business and has opened several new theaters where capacity has been tested, but it scored in Atlantic City a record which is likely to exist for some time. It opened its season at the theater on Young's Pier in that place. They had played "A Chinese Honeymoon" and was succeeded by "The Silver Slipper" which holds the record for big business at Atlantic City. John Young, veteran life saver and fisherman, now proprietor of the amusement interests in the Jersey metropolis, freely acknowledges that he made more money off "Miss Bob White" the play gave better satisfaction and he had more people on his pier during its two weeks engagement than at any one time since he has played to the amusement loving public by the sad sea waves.

The audience that witnessed "When Her Soul Speaks" at the Kentucky last night was delightfully surprised at the excellent presentation of Miss Eva Mountford and a first class company. Most of those there had never heard of the play and knew little or nothing of Miss Mountford but it was not long after the curtain rose until they all warmed up and the remainder of the performance was almost a continuous ovation for the performers. Mr. Elmer Grandin wrote the play and appears in the principal male role. The plot of the piece is fine, and the company that interprets it is unusually capable. It is probable that there was never a more pleasantly surprised audience at the Kentucky when the show was over than last night. When Miss Mountford comes back to Paducah she will be better known, and judging from her reception last night she will receive a rousing welcome.

### \* WRECK CLEARED

**TWO TRAINMEN ARE RESTING  
WELL AT HOSPITAL.**

The Scottsburg wreck has been cleared and the engines and wrecked cars brought to the city for repairs.

Flagman Brown and Conductor Keys have been brought here and are now in the railroad hospital under treatment. Flagman Brown is the worst injured but his wounds are not thought to be fatal. Conductor Keys rested well last night and is better today. He was injured in such a manner as to render him unconscious for many hours.

Mrs. E. L. Simmons went to Greenville today to visit relatives.

### NEW GROCERY

**PADUCAHAN AND A STURGIS  
MAN TO START ONE HERE  
JANUARY 1.**

Paducah is to have a new wholesale grocery January 1. It will be a large one, and is to be established by Mr. Will C. Clark, of Paducah, Mr. E. N. Given of Sturgis, Ky., and local capitalists. Both are experienced men. Mr. Clark is now with Weeks Brothers, having traveled for various whole sale groceries of Paducah for several years past. The location of the company has not been decided on, but it has an option on several buildings. It will rank with the largest concerns of its kind in this end of the state, and will be quite an addition to Paducah.

### ATTRACTIVE FEATURE.

**LADIES OF THE HOME FOR THE  
FRIENDLESS WIN MUCH PRAISE.**

One of the most attractive features of the merchants' exposition is the Japanese tea room. Hung with Japanese lanterns and decorated in Japanese colors, with pretty girls dressed as Japanese, dispensing tea, it is a veritable fairy picture. It is conducted by the ladies of the Home of the Friendless and some of the most charming young society women of the city preside over it. Besides the tea fancy hand-made articles and toilet articles are for sale.

It is usually filled, especially in the evening, with eager customers.
